

Hi Vickie <sup>and Jim</sup>,

Here I am back at the old grind. It was much more fun to be in London and enjoying the leisure life!

I really thank you for the wonderful week with you both. I loved every minute of it. You know of course that a trip like that would never have been possible except for your invitation.

Every day was so special but our day in France, Vicky, was really great. I have to laugh when I think about us bumbling around in

Calais, laughing and being silly  
tourists - wish I'd gotten a pic  
of that lady motorcyclist!

Thank you, too, Jim for all  
that driving you did so we  
could get to Ipswich. That was  
a long way to go for a beer!  
I loved it!

My plane ride home was  
long and uneventful. I got  
to see Iceland (which was very  
icy-looking) and we flew over  
the Canadian Rockies which  
were spectacular. Of course it  
was raining in Seattle but it  
was a "warm" rain by comparison.  
The kids and Dick met me with  
great anticipation (they knew I  
had gifts!) so all went well.

I hope you have a wonderful  
time on your trip and then  
getting moved to study. Please  
send cards & letters.
